

HACCP
COMPLIANCE SOFTWARE

Go Paperless

Facility Management Software

Access wherever you are

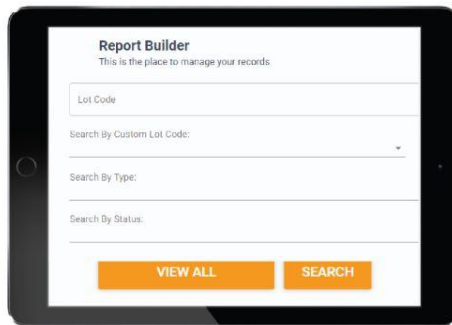

One application from your phone, tablet or workstations.

Integration and comprehensive intra-organizational/operational oversight at your fingertips, from anywhere in the world where there is internet access.

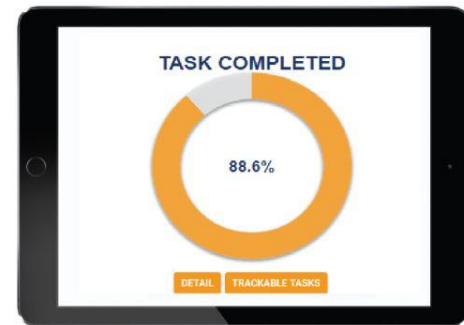

Instant access to documents during audits

Easily locate any records searching by record type, status or creation date, or by lot code during recalls or audits on our report builder.

Increase efficiency

Easy access to documents, accessible 24/7 with one-click reports and automatic notifications to not forget any tasks. Reduce your overhead by saving you time and money, allowing you to focus on profitability, growth and long-term goals.

Production Manager

The image shows a tablet displaying a mobile application interface. The interface is divided into sections: 'Date & Time' with a dropdown menu showing '2021-11-10 10:18'; 'Equipment Under Maintenance' with a pink error message 'Please, add equipment' and a question mark icon; and three input fields for 'Model', 'Manufacturer', and 'Serial Number'. At the bottom, there are two buttons: 'Edit required' (orange) and 'Approve record' (grey).

- ✓ Activity oversight in real time allowing for quick corrective actions.
- ✓ Approve records.
- ✓ All records and documentation accessible for audit 24/7.
- ✓ Create customizable video and image instructions, providing support to your team even when you're not available.

Food Safety Plan Practitioner

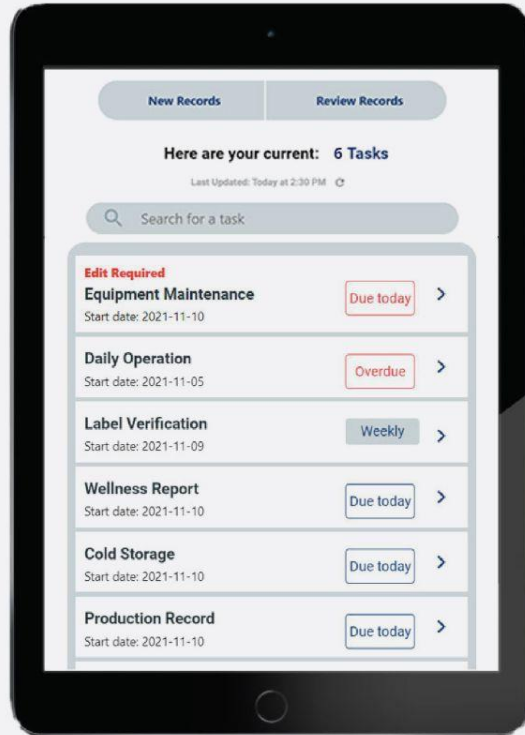

QA Manager

- ✔ Compliance dashboard to visualize the status of the HACCP plan and apply corrective actions when necessary, ensuring your operation is always audit-ready!
- ✔ Organize your entire operations to meet the standards and protocols of your HACCP plan and the Food Safety Plan Code.
- ✔ Simplify your record keeping and store them all in one place, accessible 24/7.
- ✔ Perform recalls with lot codes functionality.
- ✔ Export all log entries to a spreadsheet for easy data management.

Operators

- ✔ Daily tasks organized.
- ✔ All HACCP plan forms are accessible through the app.
- ✔ Task scheduler to ensure time sensitive tasks are completed on time.
- ✔ App Wizards with images, notes and self-help videos.

GoHACCP is a subscription product that is easily customized with a low nominal fee based upon the level of support required or desired. Our software system can be integrated with your current POS and logistics systems, especially if your current system uses a recognized API.

“Great Compliance Program! This program helped us get our Food Safety Certification. I like that all records are now stored in an organized and easy way to find when you need it later”

Khadijah M.
QA Manager | Majestic Spice

“Easy to use. I'm a user of the app... and all the forms created on the platform are easy to use and understand. The training for the app was easy to understand and the customer service people were always available for troubles and questions”

Alan C.
Quality Assurance

“I really like how customizable the software is”

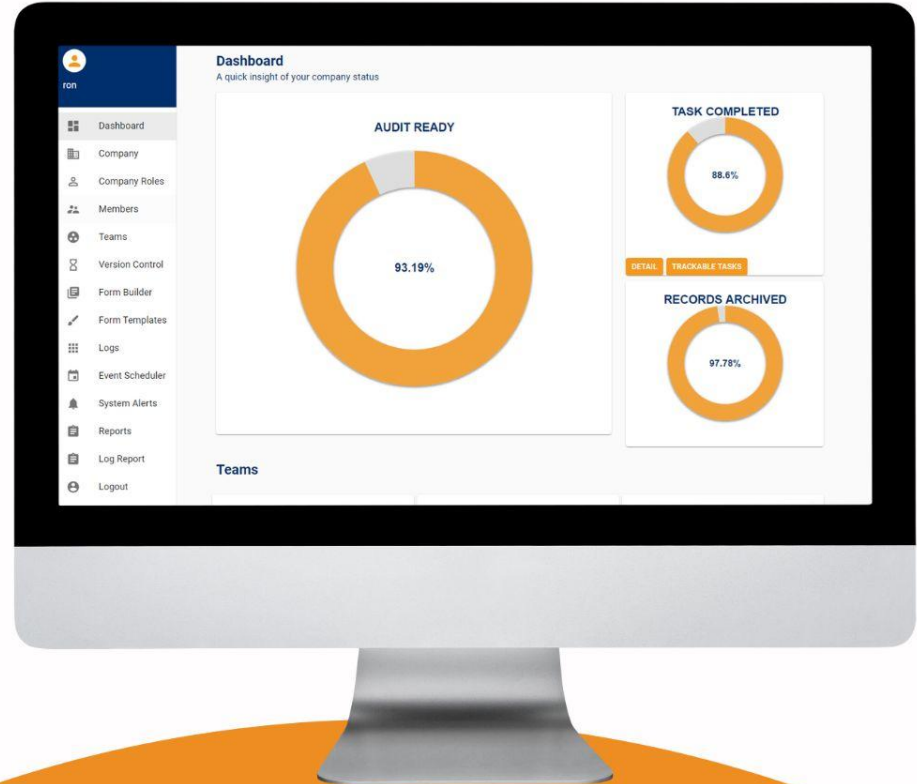

Eric W.
V.P. Warehouse & Production |
VerMints Inc.
